NEWBORN LETTER

Dear Parent:

Please be advised that most insurance plans require that you notify them within 30 days **after** the baby's birth, so please contact your insurance company at your earliest convenience to avoid any delay or problems with claims and/or authorizations.

You may also want to verify that well care and vaccines are covered benefits. You should receive a new insurance card for your child within 30 days of enrollment. Please verify that we are listed as your child's primary care physician (PCP) if you are required to select one. If you do not receive a new card, please contact your insurance company immediately.

Please feel free to contact our billing department with any questions at 727-323-2727.

Sincerely,

Fifth Avenue Pediatrics, PA
